PLANS FOR A WEBSITE

Planned Content:

1. I'm planning on making a folder or documentation type website that tells you about what I've done, what I know, what my expertise are, it can serve as an introduction to who and I am to my future employers.
2. I plan to put all the standard website should have, like a landing page, footer, header, body, and so on.
3. I also plan to put a parallax effect on my lading page, if doable on the given time, I might implement it.
4. I also plan to put sections into my website, such as pas projects, picture of it, and link on how to access it.
5. I plan to add contact section such as an about me section, and all my accounts in all social media platforms.

Planned Goals:

1. My main goal to this website is to introduce who I am.
2. My second goal to this website is to learn more about web development.
3. My third goal is to pass intro into computing subject.
